

## Telerik Academy Alpha

### FAQ

#### **What is new and different about Telerik Academy Alpha?**

With [Telerik Academy Alpha](#), we turn traditional education upside down. We are introducing a new training method to help you get ready for a career start in the software industry faster, better and more efficiently. By leveraging innovative teaching techniques and methodologies, we shorten the time to cover our standard program from 12 to 6 months.

The new program brings a personal training approach to everyone. It aims to foster teamwork and most importantly, to help you gain invaluable practical experience. Our trainers will serve as your personal mentors and coaches, helping you build upon your strengths.

#### **Who can apply and how?**

If you're looking for a job but have little or no programming knowledge, are a tech student or alumnus, a junior developer or an expert in another field who has fundamental programming skills and zero work experience, you can now use the next 3 months get ready for the application process to Telerik Academy Alpha in October. You also need to be 18 years of age or older. Due to the format of the program, it will be very difficult to impossible for you to maintain a full-time job while attending Telerik Academy.

Application for the next admission to Telerik Academy Alpha starts in September 2017. If you have little to no programming experience, you can leverage the next few months and the information on <http://telerikacademy.com/alpha> to get yourself ready for the entrance exam. You can also take part in additional preparation activities and test your skills during our online practice exams in JavaScript Fundamentals on Sep 9 and Oct 1 and C# Fundamentals on Sep 10 and Sep 30. You need to prepare a CV and cover letter and fill in the application form in our system. As a next step, you must take an exam in C# fundamentals or JavaScript fundamentals in the week starting on October 9 at our training center in Sofia. If you successfully pass the exam, you will be invited to an interview at Telerik Academy. Interviews will focus on your motivation to join the program.

The program will kick off on November 20.

#### **How much does the training cost?**

Like all other current Telerik Academy programs, the Telerik Academy Alpha tuition will be free for the students.

#### **How can I prepare for the entrance exam?**

You can prepare for the exam using our online resources on C# Fundamentals or JavaScript Fundamentals. Materials include video lessons, presentations and assignments. More information is available on <http://telerikacademy.com/alpha>.

#### **I have little/no programming knowledge, does this mean my chances are smaller to get accepted in the program compared to people with programming education/experience?**

No, all applicants will be assessed based on their entrance exam results and the qualities and motivation they show during the interviews.

#### **How much time do I need to prepare for the entrance exam if I don't have any experience in programming?**

The time necessary for preparing for the entrance exams depends mainly on your learning pace. Up to two months of regular learning and exercising should be more than enough to master the material tested at the entrance exams.

**I have successfully passed my C# Fundamentals / JavaScript Fundamentals course, do I need to take the entrance exam as well?**

Yes, all candidates must pass the exam in order to apply for the program.

**How can we take part in the practice exams? When will they take place?**

Practice exams will take place on 9, 10 and 30 of Sep, and on 1 Oct. They will be held in our judge system, and you will be able to take them online. Please have in mind that results from the practice exams are NOT part of the application process and you will NOT be able to apply for the program with your practice exam results. These are merely for you to test your skills and knowledge, and a good assessment of your preparation towards the actual exams.

**Can I apply to both tracks? If “yes”, do I need to pass two entrance exams to do this?**

Yes, you can apply to both tracks, In that case, you will need to pass two entrance exams – one in JavaScript Fundamentals, and one in C# Fundamentals. Please have in mind that you cannot get admitted in two parallel tracks at the same time, and will have to choose one.

**Is there a minimum passing score for the entrance exam?**

No, the passing score for the entrance exam will be based on the overall performance of all applicants.

**What will the interview include?**

Interviews will focus on your motivation and aspirations, and will determine if the program is appropriate for you based on your needs, expectations and personality.

**What is the principle of selection of candidates?**

All candidates who successfully pass the entrance exam will be invited to an interview with the Telerik Academy training team. The interview aims to provide us with more information on your goals and motivation to join the program. It will also give candidates an opportunity to get to know the Telerik Academy trainers, as well as our culture and values.

**What will I learn?**

You can now decide if you want to become a full-stack .NET or JavaScript developer by choosing between these two tracks.

**.NET Track**

The .NET track will cover the technologies needed for web back-end C# .NET development. The main focus will be on working with ASP.NET MVC, MSSQL and Entity Framework. We will cover topics, such as object orientated programming, unit testing, design patterns, SOLID, data structures and algorithms, and many more. Find a detailed curriculum [here](#).

**JavaScript Track**

The JavaScript track will cover the technologies needed for web full-stack JavaScript development. The main focus will be on working with Express, MongoDB, Angular, with a brief

introduction to React.js. We will cover topics, such as unit and integration testing, single-page application design, and many more. Find a detailed curriculum [here](#).

After successful completion of the 6-month program, you will be armed with the competitive knowledge and practical skills to launch a career in the software industry.

### **When and where will trainings take place?**

The program will be held onsite at Telerik Academy on 31 Alexander Malinov Blvd. in Sofia. Trainings start in November and are expected to end in April 2018. Lectures will be held daily Monday to Friday, for 4 hours each day.

### **Can I choose between online and onsite training?**

Training will be only onsite. Attendance in person is key to our students' successful graduation, which is why onsite participation is required. Participants must attend all classes, since they won't be available online.

### **Can I work while attending the program?**

Due to the format of the program, maintaining a full-time job while attending Telerik Academy will be very difficult to impossible.

### **Do I have to sign a contract to join the program?**

Yes, all admitted students will sign a contract with Telerik Academy as part of their participation in the program.

### **Are we going to have homework assignments?**

The Telerik Academy Alpha program aims to constantly improve its format to the ultimate benefit of the students. You will not be expected to submit homework on a regular basis, but based on your progress and the specifics of the topic you are covering, you might be given home assignment throughout the program

### **Are there computers in lecture halls that we can use during exams or lectures?**

No, there are no computers in lecture halls. All students need to bring their own devices while attending lectures and sitting exams.

### **Do all students graduate?**

Similar to the other Telerik Academy programs, only the best performing students who successfully pass all requirements and assignments will graduate.

### **Will I receive a certificate at the end of the program?**

Graduates will receive a certificate, which is widely recognized in the IT industry in Bulgaria.

### **Will I land a career in the software industry upon graduation?**

All graduates will have access to the Telerik Academy partner network, which will help them jumpstart their career in a software company upon graduation.
